PROJECTS

[ScheduleWizard](#) – MERN Stack (GraphQL, Express, React, Node, MongoDB) | [GitHub](#)

- Developed a full-stack web application for creating, sharing, and managing schedules.
- Utilized Node.js, Express.js, and GraphQL for efficient data handling.
- Secured user data with JWT.
- Included real-time search functionality, notifications, and community rating system for shared schedules.
- Enhanced design with modern CSS techniques and React Bootstrap.

PROFESSIONAL EXPERIENCE

All Source Analyst Portland, OR (Remote)
DigiStream Investigations March 2024-Present

- Managed the productivity of Research Analysts, ensuring timely completion of over 1.5 reports per day and effectively assigning cases based on complexity and analyst expertise.
- Coordinated closely with office staff and field investigators, relaying crucial findings and overseeing the distribution of analytical updates, such as Red Flag Analyses and Social Monitoring Updates.
- Directed the meticulous retrieval of court and medical records, aiding clients in assessing claims by uncovering critical information.
- Provided strategic weekly updates to the intelligence department, ensuring seamless communication and operational alignment across the team.

Research Analyst Portland, OR (Remote)
DigiStream Investigations May 2022- March 2024

- Analyzed social media and background records, produced detailed reports, and managed a high volume of cases, efficiently completing 1-2 daily.
- Collaborated with team members in operational strategy meetings, maintaining strict confidentiality.
- Provided expert testimony in court, demonstrating the accuracy and reliability of investigative findings.

EDUCATION

University of Minnesota - edX Minneapolis, MN (Remote)
